ProLast™ Cover

PROLAST™ COVER

With optimal water resistance and minimal stretching, the flexible all-weather fabric of the ProLast™ Covers are designed to last longer. And with proven use in the boating and aviation industries, this hot tub cover not only resists tear and abrasion, but is high UV, water, mold and mildew resistant as well making it an essential factor in maintaining your hot tub.

REVOLUTIONARY DESIGN

You've simply never seen a hot tub that looks like this. The weatherproof Curvalux™ exterior mimics the weave texture of designer outdoor furniture, accented by the glow of innovative exterior corner lights. Multi-color internal lights behind dual waterfalls fuse sight and sound. And a concealed clip skirt system even eases maintenance access without compromising the clean lines. Made with the quality for which the Jacuzzi® Brand is known, the J-500™ Collection is as much of a design piece as it is a dynamic hydromassage experience.

PERFORMANCE

- Introduces new PowerPro® FX Directional Jet for targeted hip massage, exclusive to the J-500™ Collection
- Offers wrist jets incorporated into an upright seat in the J-585™
- Provides wider variety of seating levels to accommodate varying heights comfortably

DESIGN

- Debuts Curvalux™ exterior mimicking durable, high-end patio furniture
- Showcases a modern shape with an elevated silhouette and wall mounted controls for sleek deck design
- Features a revolutionary architectural lighting design integrated into the skirt

EASE OF USE

- Incorporates full-color ProTouch™ Glass Control panel
- Utilizes smartphone app for monitoring, maintenance reminders and remote operation
- Integrates a concealed clip skirt system for easy, tool-free access

JACUZZI® EXCLUSIVE PATENTED JET TECHNOLOGY

POWERPRO® FX SMALL
 Based on FX technology, the FX Small Jets are perfect for a focused massage on key pressure points such as your feet.

POWERPRO® PX
 Perfect for small muscle groups in the wrists, hands and legs, the gentle pulsating massage can be adjusted for different rates of flow.

POWERPRO® FX
 The unique rifling action creates a rejuvenating spiral stream of air and water, perfect for stimulating small muscles groups.

POWERPRO® FX ROTATIONAL
 Focusing on smaller muscle groups with a kneading effect, the FX Rotational Jet stimulates surrounding tissue using FX technology.

POWERPRO® NX2
 This directional jet effectively relieves tension and strain in the sensitive and hard-to-reach neck area through a highly focused stream of water.

POWERPRO® RX
 Delivering the highest performance hydromassage Jacuzzi® Brand offers, the spinning action of powerful RX Jet covers a sizable area, reaching the key muscles and nerves of the back.

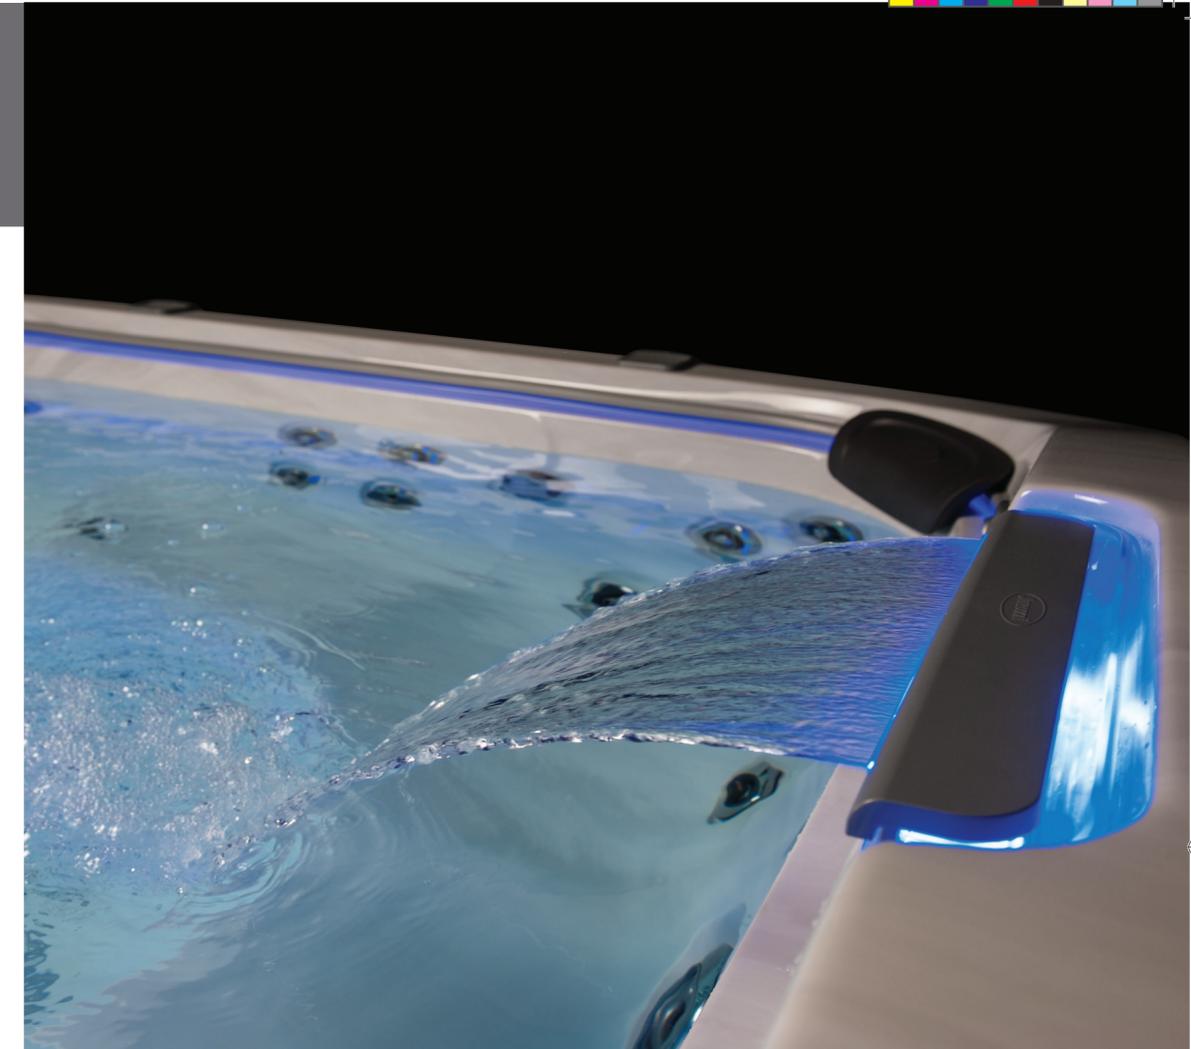

POWERPRO® FX DIRECTIONAL
 Designed to relieve tension and improve circulation, this spiral action directional jet delivers a bold, targeted massage to the hips.

POWERPRO® FX LARGE ROTATIONAL
 With a wide swath that provides an exceptional massage for large muscles, the rotational action can help overworked, overstressed muscles and joints.

POWERPRO® MX2
 Based on the form and function of the original Jacuzzi® Jet, the new-generation jets deliver maximum volume at a higher air-to-water ratio to deliver a bold massage to the muscles in the lower back.

UNRIVALED HYDROMASSAGE

The J-500™ Collection feels as good as it looks. Featuring superior hydromassage for which the Jacuzzi® Brand is known, the collection offers a wider variety of seating to provide maximum comfort. A new PowerPro® FX Directional Jet makes its debut, designed to relieve tension and improve circulation in the hip area through a bold spiral-action massage. And an upgraded therapy seat delivers wrist jets in an open seating design. Combined, these provide the finest hydromassage experience of any hot tub, anywhere.

INNOVATIVE TECHNOLOGY

The J-500™ Collection is also the most technologically advanced hot tub we've ever made. The ProTouch™ control is the first water-proof glass touch screen control on a hot tub. Our integrated smartphone app allows you to heat up the water on your way home, activate maintenance reminders and even alert both you and your local dealership of any service needs. The fiber optic ProEdge™ lighting technology only uses a single LED bulb on the inside perimeter to make your hot tub glow evenly. Thanks to the latest technology, this collection is also the smartest.
