

Muse inspiring wellness

Design and technology combine to produce the ultimate hydromassage

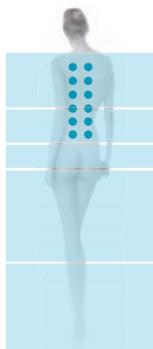

Jacuzzi® presents Muse. Get inspired by this exciting combination between the ancient art of Shiatsu massage and the new TargetPro™ jets which make the exclusive Jacuzzi® classical hydromassage and the AQS® system even more effective. A synthesis of the classical and holistic vision of wellness with its flowing lines, Muse enters a new aesthetic and technological dimension. The soft profile embracing its top rim is the characteristic feature of a spacious and sinuous whirlpool bath whose iconic shape is the very image of comfort.

Shiatsu hydromassage. 32 progressive micro-jets arranged along the back, generate a sequence of pleasurable water pulses that are adjustable in intensity; to be used in an upward direction for a **tonic** effect and downwards for **relaxation**, so that energy may be perfectly restored. This type of massage, stemming from an in-depth study of the manual massage technique reproduced thanks to exclusive Jacuzzi® technology, stimulates energy and confers a profound sense of psycho-physical wellbeing.

TargetPro™ jets. Designed to offer a hydromassage treatment that is even more personalized and versatile to suit individual needs. The new TargetPro™ jets can be adjusted directionally to reach where you need it the most. Jets may be controlled as required by simply rotating the nozzles.

J.touch remote control. It lights up in response to a mere touch and enables all functions to be selected easily and intuitively: Shiatsu and AQS® hydromassage programmes, Cromodream®, water temperature control and Sound System with Bluetooth®.

FUNCTIONS

Classic Jacuzzi® hydromassage with TargetPro™ jets

Shiatsu hydromassage with sequential microjets
Programmes: Tonic and Relax

Aquasystem® with TargetPro™ jets
Programmes: Silence, Breath, Dream, Renew
